Bo2W Posters on Dismantling available: CRT-TVs, Desktop PCs and Packaging of Used Lead-Acid Batteries

5th of January 2016 by Stefanie Degreif

The Bo2W project team has prepared intelligible posters on dismantling CRT-TVs, dismantling desktop PCs and packaging used lead-acid batteries for bulk transport. Each poster is available in English, French, Arabic, Hausa and Twi.

The posters can be found on the project website (see Brochures)

http://www.resourcefever.org/project/global_circular_economy_of_strategic_metals.html

If you are interested in printing the posters in A0 format, please send your request by e-mail to Stefanie Degreif (s.degreif[at]joeko.de). Due to the file size, it is not possible to provide all posters in A0-format online.
